

**Mohamednaqi Daya** is a highly experienced Plumbing and Heating Engineer with decades of professional expertise in the installation, maintenance, and repair of plumbing and heating systems.

Throughout his career, Mohamednaqi has served a wide range of clients, earning a reputation for reliability, technical competence, and practical problem-solving. Among the many organisations and individuals he has assisted, he has provided extensive service and support to Stanmore, contributing significantly to the upkeep and maintenance of its facilities and infrastructure.

His wealth of technical knowledge, hands-on experience, and commitment to delivering effective solutions would make him an invaluable member of the Executive Committee. In particular, his expertise would greatly strengthen and support the Maintenance Team, helping to ensure that Stanmore's buildings and services continue to be maintained to the highest standards for the benefit of the community.

Mohamednaqi's dedication, experience, and willingness to serve would be a considerable asset to the Executive Committee and the wider community.
